Twitter

Platform With
Most Severe Toxicity

PUBG on Discord

PUBG on Twitch

PUBG on Twitter

Interpretations

- On all three platforms, two common subtypes of toxicity in the gaming environment are "obscene" and "insult", which include words about sexual organs and violence.
- There are considerably more "severe toxic", "threat", "identity hate" comments on Twitter.
- "Severe toxic" and "threat" comments usually include words about death and severe crime.
